Dear Sir/Madam.

RE: THANK YOU VERY MUCH.

I feel privileged and honored to be one of the beneficiaries of the USAID OVC scholarship program. Your generous support is helping me to fulfill a life long dream of becoming a software engineer.

I am the second born in a family of six and the only one in college. Having been brought up by a single parent whose little education couldn't get her a good paying-job to take good care of the family, I have learnt to cherish any academic opportunity that comes my way. Education, I believe, is the only opportunity I have got to change my life for the better. That's why I am glad to have this opportunity to thank you personally for your generosity.

I have a passion for computers and software. My future plans thus include majoring in Software engineering. I believe that, with a good knowledge in software development, I will be in a better position to greatly contribute towards the improvement of ICT sector in my country.

Once again, I offer my sincerest gratitude for your kindness and love.

Thank you and God bless.

Yours sincerely,

Wycliffe Onyalo.
