DEAR SIR/MADAM.

REF: THANKS GIVING.

I take this opportunity to express my joy and feelings to that you have been doing to me. Since when you started sponsoring me for my education, informing you that I have been enjoying good education that school offers. Education have helped to forget what happened in the past, appreciating myself despite the lack of parents' loving.

I have learned to socialise with other people and how to mind to other people's affairs as well as helping them when in need. So I have joined school's clubs which deals with the issues of drug abuse and HIV/AIDS which is affecting young people in the society we are living in.

I'm going on well with my education, although I have been undergoing illness problems that has led to be admitted in hospital. I've also been participating in athletics up to provincial level having given seven certificates. In education I managed C+ grade, which I'm working hard to improve. You have helped me to set goals which I'm working day and night to achieve. I promise to better my grade than this come next time.

I have never been sent home because of school fees. I'm leading a life like other students who have their parents. Thus I'm thanking you for your support since I was enrolled in this school. What I can promise is to work hard to be a good person and a person who can be reliable in the society and helping who needs my help in return.

Thank you for taking a crucial moment to serve those in need. God bless you and the work of your hands.

Your faithful
